From: Edward A. Feigenbaum, Chairman, Computer Science

Subject: Betty Scott—Exceptional Merit

Dear Sydney,

Once again I want to tell you that Betty Scott's performance as Administrative Officer of our department is simply outstanding. She is a superb employee—the hardest working person I have ever seen. Moreover, the quality of her work is flawless. It is always on time and always done with the best judgment. She takes on heavy (almost endless) departmental responsibilities and never fails to deliver.

If salary is to reflect merit even a little in these difficult times, then something extraordinary is due her for the extraordinary quality and quantity of her work.

Sincerely yours,

Edward A. Feigenbaum
