The Director of the Computer Center  
Stanford University  
Stanford, California  

Dear Sir:

Enclosed are copies of two of my papers which made extensive use of computer time from the Stanford Computation Center. The papers are "Conditional Response Scaling" and "A Mathematical Study of Decision Processes." The latter is a technical report version of my dissertation submitted to the University in requirements for my degree from the Department of Sociology. Extensive grants were made by the Computation Center to support many phases of the research reported in these two papers.

I wish to thank the Computer Center for these generous grants of computer time.

Sincerely yours,

[Signature]

Hans E. Lee  
Assistant Professor of  
Computer Science and Sociology
